# Epson **TM-H6000III Series**

## DATASHEET

## KEY FEATURES

High performance, incredible speed

Printing at an ultra-fast 63 lps, the TM-H6000III offers highly customised colour receipts in an instant. With advanced graphic and barcode capability, you can include high-quality logos and promotional messages to turn your receipts into a powerful, “live” medium for communicating with customers and enhancing your brand. This printer has a large user memory too, so if you use a particular graphic regularly, it’s even faster.

Unique cheque printing mechanism

This printer’s cheque printing mechanism not only doubles cheque processing speed but also virtually eliminates paper jams. This is because it uses two print heads to print on both sides of the cheque in a single pass. And because there’s no need to flip the cheque, it’s virtually error-free, even with crumpled or folded cheques.

Space-saving and reliable

Designed to occupy minimal counter space, the TM-H6000III offers superb reliability. The product’s build quality and metal chassis provides long-term insurance against mechanical wear and tear and minimises down-time. The product also features maintenance counters which automatically record usage, so you can easily identify heavily used units and deploy preventative maintenance programmes.

Flexible and user-friendly

Fully Euro-ready, and featuring a stylish and ergonomic design, this printer also offers sophisticated cable management, native support for barcodes, and a single-action, drop-in paper load. It’s truly open too, with support for OPoS and JPoS, plus a modular interface design, so that upgrades or changes (between serial, parallel and USB) can be made quickly and cost-effectively.
